

Dignity.

Help her stay in school.

Little Dresses for Africa has identified a need among the young women in 3rd world countries and we are addressing it with our “sani-panti” sewing project. The distribution of these simple, washable pads and the discussion surrounding good hygiene enables young girls to not only manage their periods more easily, but maintain their dignity in the community. Please join us in this important project. Also needed are adult sized women’s panties. Thank you!
