

Namoyo Hostel for Girls

Little Dresses for Africa

The unmistakable traditional welcome is heard with the ululations of the ladies, tongues rapidly moving back and forth accompanied by the high-pitched sound, showing their great delight as they welcome the visitors to their village. Women and children swarm the area to greet their guests.

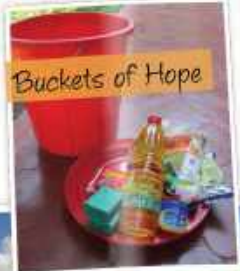

Clean Water

Maybe you picture the little dress you sewed for a little one bringing a smile to her little face. Perhaps you have served in Africa and a specific child stays in your mind representing all the children who are waiting for our help.

Medical Days in the Villages

Little Dresses for Africa has been blessed beyond our wildest dreams. With over 8 million dresses and almost as many "britches for boys" going to 87 countries, we have together made an impact on a lot of little girls and boys through a very simple gesture, but we didn't stop there!

Buckets of Hope

The Feeding Program

"We're not just sending dresses, we're sending hope."

Through these little dresses we have been able to deliver tangible hope through clean water, education, and community.

Help us continue to change lives here and across the ocean as we celebrate our **10th year serving in Africa** and beyond. Please pray for the projects and let us know how you can help!
